

BRAND INDEX

Delivering Technology to the Scientific Community

Instrumentation | Equipment | Consumables | Reagents & Assays | Technical Support

Welcome to the Bio-Strategy Brand Index. Here you will find the key brands and products available in New Zealand.

Bio-Strategy - Part of DKSH Group - offers a comprehensive range of products for your laboratory research, analysis, and production. Our portfolio includes technical instrumentation, high quality laboratory equipment, consumables, chemicals, and reagents & assays for many applications.

Bio-Strategy was founded in 2003 and in 2023 became part of DKSH Group. It is an established ISO9001:2015 accredited distributor delivering technology to the Scientific Community throughout Australasia.

The Bio-Strategy team shares a passion for science and, in partnership with world leading suppliers, we offer our customers solutions to advance their research and work.

From our extensive product range we provide quality technology to customers in numerous market sectors including: Diagnostic Laboratories, Academic Research, Government Institutes, Applied Testing and Industry. Our specialists can tailor solutions to fit your research and business needs.

Bio-Strategy's main office is located in Auckland with teams throughout the country. Our skilled application scientists, sales specialists, service engineers, and our entire team of more than 130 staff across Australasia are available to support you and your laboratory requirements.

Della Smith
General Manager
Bio-Strategy Part of DKSH

AUTOMATION - Sample Preparation & Processing

Automated liquid handlers for sample preparation, with a myriad of dedicated applications, from low thru-put small footprint of the ML prep to higher thru-put systems of the STARline and Vantage.

STARline

Grenova automated tip washers to accommodate most industry brand tips ensuring sustainability.

TipNovus Tip Washer

ML Prep

Nimbus

VANTAGE

AUTOMATION - Automatic Storage & Retrieval

Automated storage management solutions, decappers and consumables for safe storage of patient samples/biobanking with full traceability, from ambient down to -185oC with Askion's automated LN2 based cyro-storage.

VERSO M and L series

SAM HD

Askion HS200S

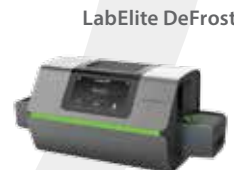

VERSO Q series

BioS

LabElite Decappers

LabElite DeFroster

AUTOMATION - Integration for Total Workflows

Integrations with automated sample processing and storage as well as with other 3rd party devices for Total Workflow Solutions with Biosero Green Button Go Software Scheduling.

Green Button Go™

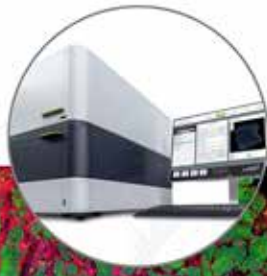

nanoString™

Catalyze The Next Revolution Using Spatial Biology

CosMx® Spatial Molecular Imager

Map RNA and protein molecules in intact tissue with sub-cellular resolution

GeoMx® Digital Spatial Profiler

Combine high-plex & high-throughput spatial RNA and protein analyses

nCounter® Analysis System

Complete solution for digital detection and counting large sets of molecules

See the proteome in a way that has never been possible before

The Proteograph™ Product Suite

Seer offers the first and only automated platform for proteomic studies that enables sampling across the entire plasma proteome's wide dynamic range, allowing discovery of novel protein variants with the reproducibility and speed needed for high throughput studies.

Advancing Discovery in Protein and Cell Biology

Let our technology power your discoveries

- Microplate Readers and Washers
- Cellular Imaging Systems
- FLIPR Penta
- Clone Screening
- Assay Kits, Clone Media and Reagents

MICROSYSTEMS

Develops and manufactures microscopes and scientific instruments for the analysis of microstructures and nanostructures. Widely recognised for optical precision and innovative technology, the company is one of the market leaders in:

- Compound Microscopes (upright and inverted)
- Stereo Microscopes and Macroscopes
- Digital Microscopes
- Electron Microscope Sample Preparation Equipment
- Microscope Cameras and Software

Life Science Innovator Since 1966

CO₂ Incubators

Pharmaceutical Refrigerators

Biomedical Freezers

Ultra Low Temperature Freezers

Miele Professional:

Laboratory glassware washers and disinfectors. Miele's range of instrumentation is designed to easily withstand the rigours of repeated cleaning whilst ensuring consistent results day after day.

CareDx is a molecular diagnostic company focused on the discovery, development and commercialisation of clinically differentiated, high value diagnostic surveillance solutions for transplant patients.

Your Partner in the Service of Medicine

BAG Diagnostics provides test systems and reagents which always deliver the highest quality for your diagnostics. This quality ensures that people with impaired organ function, genetic disposition or transfusion needs are given the best possible starting conditions for their recovery/therapy.

Transplantation Diagnostics

Transfusion Diagnostics

Human Genetics

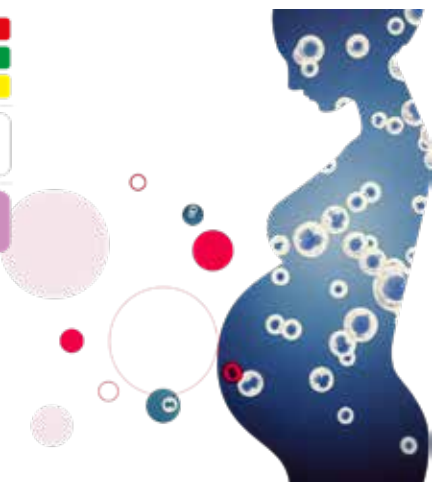

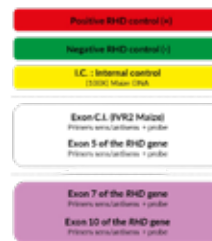

A completely new approach!

Next Generation DNA/RNA extraction kits providing more convenience, quality and speed.

By moving to a BioEcho extraction kit you are supporting

- environmentally friendly science: no harsh extraction chemicals
- sustainability: with 70% less plastics than standard Silica kits

Institute de Technologies Jacques Boy:

Laboratory reagents for Blood Grouping and NIPT Fetal RhD Genotyping

In Vitro Diagnostic Medical Devices for immuno-hematology, cell-culture and molecular biology accredited laboratories.

Meso Scale Discovery® (MSD)

A global leader for innovative assays and instruments for the measurement of targeted molecules in biological samples.

MSD's proprietary MULTI ARRAY technology uses electrochemiluminescence to enable researchers to profile multiple biomarkers simultaneously in a single sample.

AliveDx

Driven To Provide Innovative Solutions

Products built with the patient in mind and designed to make labs more efficient and clinical decision-making more effective.

MosaiQ® - one of the first multiplexing and multimodality automated testing platforms revolutionizing clinical diagnostics worldwide.

MaxCyte®

Navigate your way from concept to clinic with MaxCyte

Let's Build Better Cells Together

MaxCyte's unique electroporation technology was designed for safe, efficient and reproducible transfection to enable the development and manufacturing of next generation cell therapies. Empower your research with ExPERT™ instruments.

Molecular Testing *Anywhere!*

- 1 Load Sample
- 2 Insert Cartridge
- 3 Report Results

A leading point-of-care molecular diagnosis provider which is actively contributing to the global prevention and control of major communicable diseases such as COVID-19, tuberculosis and malaria.

WORLD CLASS. WORLDWIDE.

A World-Leading Manufacturer And Service Provider Of Life Science Tools

Laminar airflow, life science, IVF, pharmaceutical, vaccine and cell therapy equipment. Esco products support cutting-edge research, helping biopharmaceutical companies make their drugs safer and more cost-effective, enabling lower cost manufacturing of vaccines, and directly through innovative medical devices and diagnostics.

Find The Best Solution For Your Rapid Testing Needs

Fast, reliable and easy to use diagnostic test kits and instruments for bioanalytical testing for food, feed, environmental, biopharm, animal health and clinical industries.

Priorclave

Autoclaves, steam sterilisers and accessories.

- All British design
- More than 60 autoclave models
- From 40 to 700 litre chamber capacities
- Manufactured in Priorclave's London facility to UK standards
- Extensive range of options enables tailoring to meet your specific requirements
- Proven energy savings
- 10 year chamber warranty

Enhancing precision cancer diagnostics

Bio-Strategy is the exclusive distributor for Epredia in New Zealand and Australia. Epredia is a Global Leader in Precision Cancer Diagnostics and Tissue Diagnostics offering the highest quality products to enable our customers to achieve diagnostic excellence.

- **Instruments:** Cryostats, Microtomes, Printers, Tissue Processors & Embedding, Stainers, Coverslippers and Cytocentrifuges
- **Consumables:** Slides (Superfrost and Superfrost Plus), Coverslips, Blades (MX35 Ultra), Cassettes and more

JASCO is a global leader in a wide range of innovative technologies using optical spectroscopy and chromatography.

Spectroscopy

JASCO delivers an impressive range of optical spectroscopy instrumentation.

They are compact in design, robust in operation and range from entry-level models to extremely sensitive research-grade instruments.

Chromatography

High Performance Liquid Chromatography EXTREMA 4500 Models is a conventional HPLC that aggregates the technology cultivated with EXTREMA 4000 Models into a compact casing with a width of only 15cm.

Next generation chromatography configurations have arrived.

Delivering Tailored Solutions

Advion Interchim is a provider of analytical instrumentation (such as mass spectrometers & liquid chromatography) and laboratory consumables.

In combination with the extensive consumable range from Interchim, Advion Interchim provide the best in-class solutions for any laboratory setting.

Mass Spectrometry

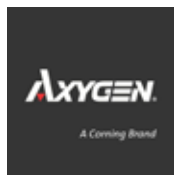

The Advion portfolio can be summarised into three categories

Purification

Consumables

Axygen: High quality reliable consumables, reagents & equipment for genomics and many other applications

- Automation Consumables
- PCR Consumables
- Liquid Handling
- Equipment

Corning: Cell culture, scale-up/bioprocess, drug discovery, innovative vessels, advanced surfaces and quality media products.

Falcon: Tubes, serological pipettes and cell culture products.

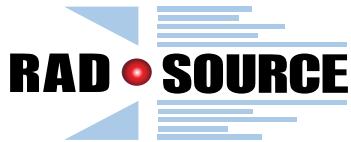

Cytiva: Provide protein purification chromatography with ÄKTA systems & columns, resins for FPLC, Western Blotting reagents, membranes & imaging systems, Biacore consumables, Nucleic acid purification & amplification in the illustra range, Percoll & Ficoll cell density media and Whatman filtration products.

DWK Life Sciences: Leaders in the manufacture and supply of glass and plastic labware, cell culture apparatus and consumables, with brands like Duran®, Pyrex® and KIMBLE® dating back over 100 years providing solutions for Scientific Research, Pharmaceutical, Healthcare, Environmental and Industry applications.

- DURAN® Borosilicate 3.3 Glassware
- WHEATON® Cell Culture & Chromatography Solutions
- KIMBLE® KIMAX® KONTES® Glassware
- PYREX® Laboratory Glassware
- QUICKFIT® Ground-Glass Jointed Glassware
- MBL® Volumetric Glassware
- SVL® Screwthread Jointed Glassware
- AZLON® Reusable Plasticware

X-ray irradiators designed for blood, small animals, insects, cells and cannabis decontamination.
Powered by Quasar®

Lec Medical range from Rollex:
 Spark-free laboratory refrigerators, pharmaceutical refrigerators, and freezers.

LABOGENE

Laminar Airflow Products (incl. Class II) and Freeze Dryers.

GYROZEN

Centrifuges, concentrators and freeze dryers.

Flame photometers, chloride analysers, magnetic susceptibility balances.

Analytical balances, precision balances and industrial balances. Small equipment: pH meters, dry block heaters, shakers, magnetic stirrers and vortex mixers.

Unstirred and stirred water baths, dry block heaters, shaking and ultrasonic baths, refrigerated circulators and vortex mixers.

Magnetic stirrers, hotplates, vortex mixers, orbital shakers, grinding mills, dispersers/homogenisers, bomb calorimeters, rotary evaporators and viscometers.

Disposable and multi-use plasticware for laboratories, clinical diagnostics and life science research; tubes, containers, PCR, cell and tissue culture, liquid handling and microbiology disposables.

The Measure of Excellence

Hamilton Company products provide you with unmatched accuracy and precision in your everyday laboratory tasks and workflows.

- The most comprehensive selection of syringes and needles
- A complete selection of silica and polymer based HPLC columns
- Automated intelligent diluting and dispensing with the Microlab 600 series
- Robust and intelligent in-line process sensors for pH, ORP, Dissolved Oxygen and Conductivity

Benchtop and Digital handheld refractometers, optical handheld refractometers, bilirubinometers, veterinary and clinical handheld refractometers & refractometer calibration oils.

Experience a HIGHER LEVEL of PROTECTION

Globally trusted gloves for life science, industrial research & clean rooms (PPE), Ansell Microflex & Touch N Tuff premium quality laboratory & examination gloves (PPE).

Answers in Life Science

Assays measuring human complement, auto-immune markers and hormone analytes (Euro Diagnostica have changed their name to Svar Life Science AB).

The high Level disinfection of choice for disinfection of hard surfaces. Effective against Hepatitis A, B, and C, HIV, MRSA, Influenza A Virus, E- coli (ESBL), Klebsiella pneumoniae (ESBL), Coronavirus Middle East Respiratory Syndrome (MERS) and SARS-Cov-2 (Covid-19).

Laboratory Immunodiagnostic Products And Equipment

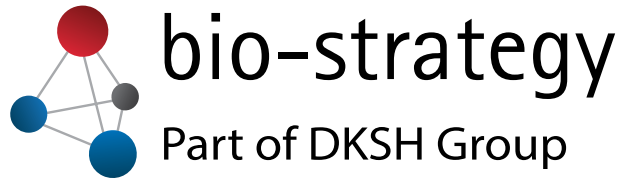

Enzyme Immuno (ELISA) Assays, Saliva Tests, Tumour Marker Assays, Chemiluminescences Assays, Rapiidscreen Assays

The wise choice

Scharlau products from Scharlab offer an extensive range of exceptional purity chemicals, reagents, organic standards, and other items for Chemistry and Microbiology.

Protect Your Investment!

Support available every step of the way with Field Service Engineers and Application Scientists

Improve your lab productivity and accelerate your research.

Here at Bio-Strategy we pride ourselves in providing:

Country-Wide Coverage | Factory Trained Engineers and Scientists | Original Spare Parts

FIELD SERVICE SUPPORT
Installation | Compliance | Maintenance

Get the most return for your investment

The condition, life span and accuracy of instruments is critical for the most essential tasks in the laboratory.

Bio-Strategy's Technical Service is designed to help keep your lab instruments precisely up and running which gives you peace of mind.

Peace of mind

We do this by offering complete service solutions from installation, after sales service and compliance to the supply of original spare parts.

Our large team of factory-trained engineers covers all regions of New Zealand.

Certifications

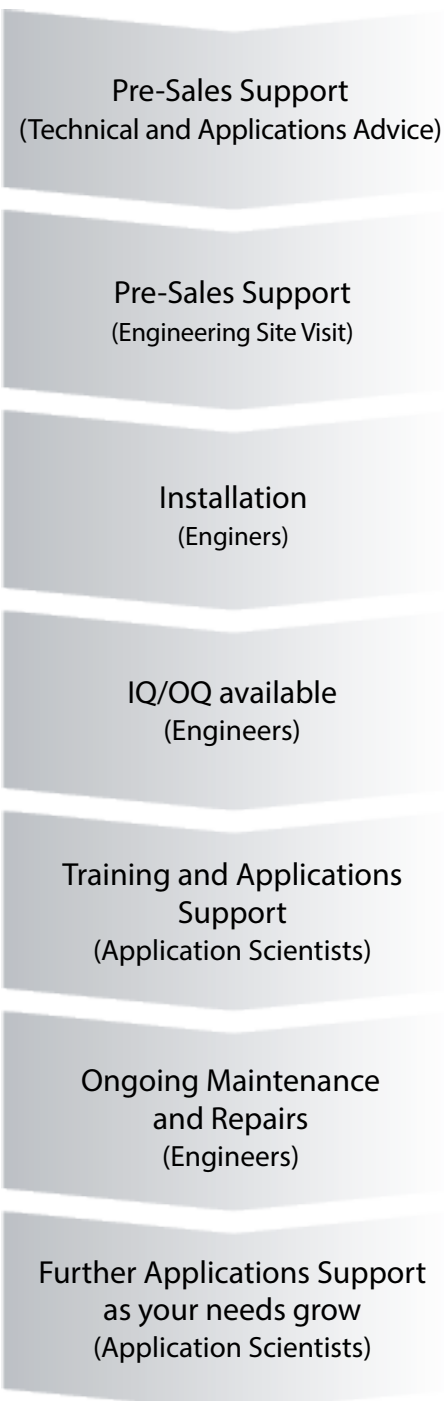

- ISO-9001:2015 Certified
- ANZ
- IQ/OQ

Service Agreements*

- Tailored to customer's needs on a wide range of supported equipment
 - Comprehensive Agreements covering service and parts
 - Standard Agreements including scheduled Preventative Maintenance services and up to 10% off parts and breakdown labour
 - Advanced scheduling of Preventative Maintenance
- *initial checks on equipment out of warranty may be chargeable

Remote Support

- In-house engineer for phone support
- Remote support diagnostic capabilities
