## Perfect for the teaching laboratory

The V-730 is the entry model to the UV/Vis range from JASCO and is compatible with many of the accessories that JASCO offer (e.g. multi sampling, microvolume, temperature control).

With user-friendly software and a wide range of optional programs, this makes the V-730 perfect for the teaching laboratory.

Bio-Strategy Part of DKSH Group, provides full support for the complete range of spectroscopy and chromatography instruments from JASCO.

Manufactured in Japan, these instruments are becoming increasingly popular.

Ask about package deals for fleet upgrades to start the new year with fresh instruments.
