

MultNAT® System

Molecular Diagnostic PCR System

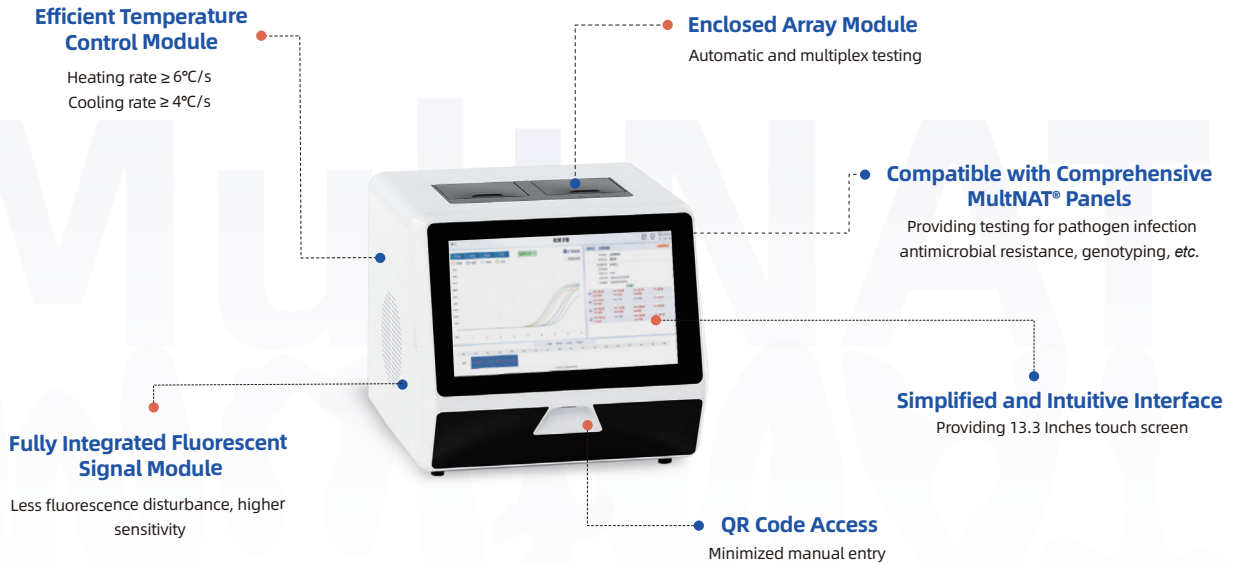

Multiplex / Automatic / Enclosed / High-Throughput

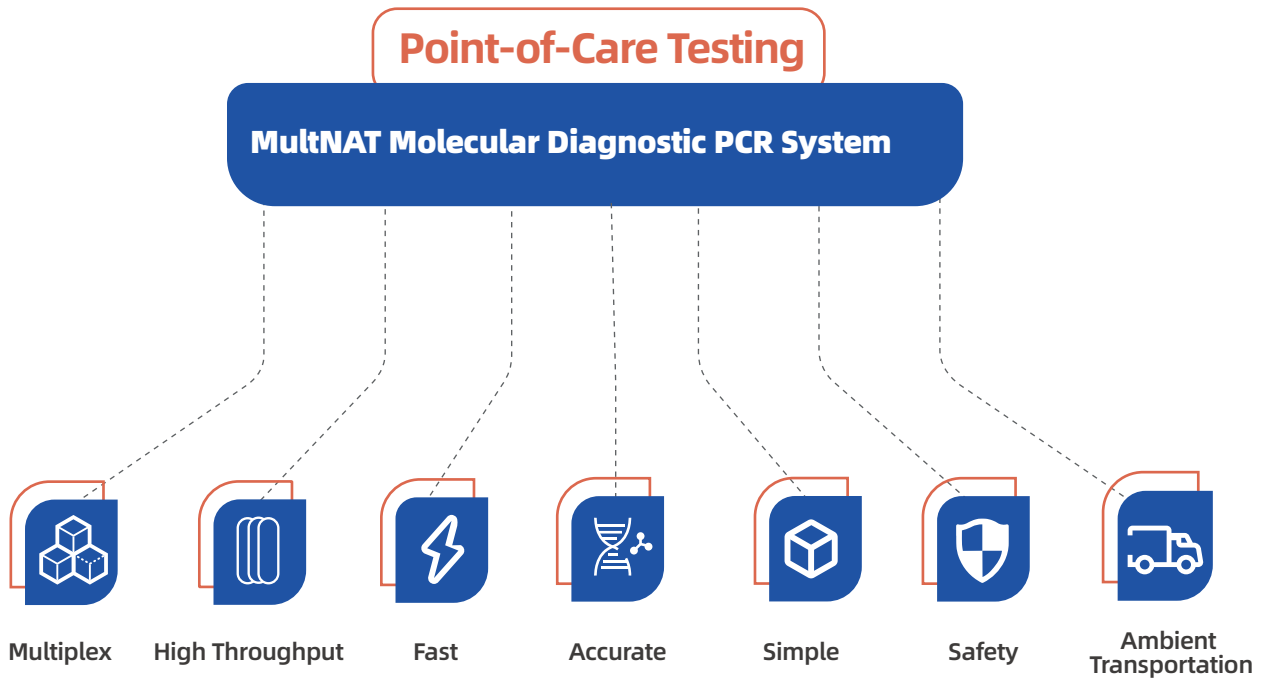

PRODUCT INTRODUCTION

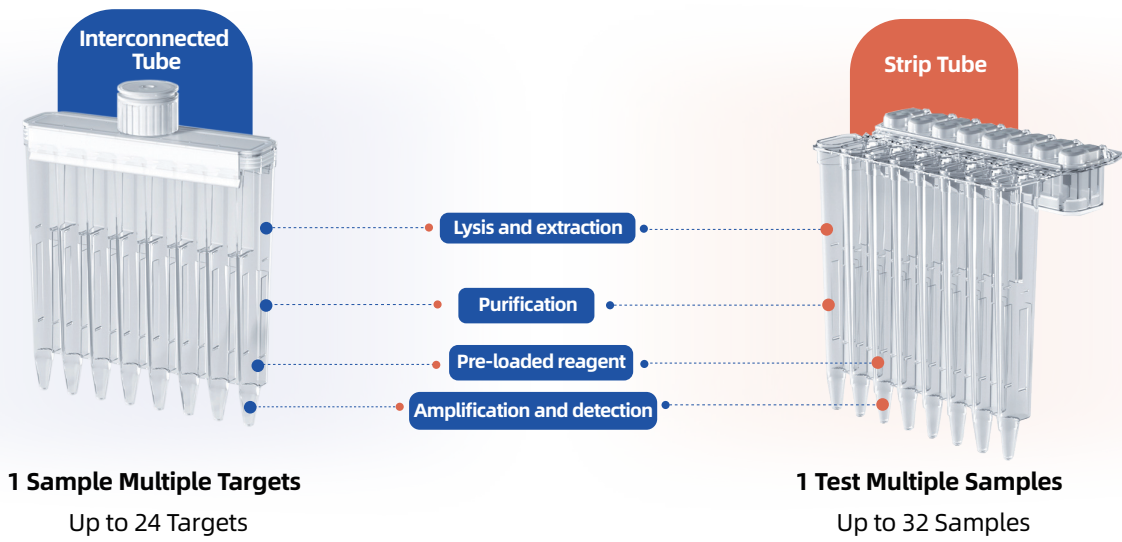

The MultNAT[®] System, based on fluorescence polymerase chain reaction (PCR) technology, is a fully integrated and automatic system designed to meet the increasing demand for multiplex, high-throughput and quantitative testing.

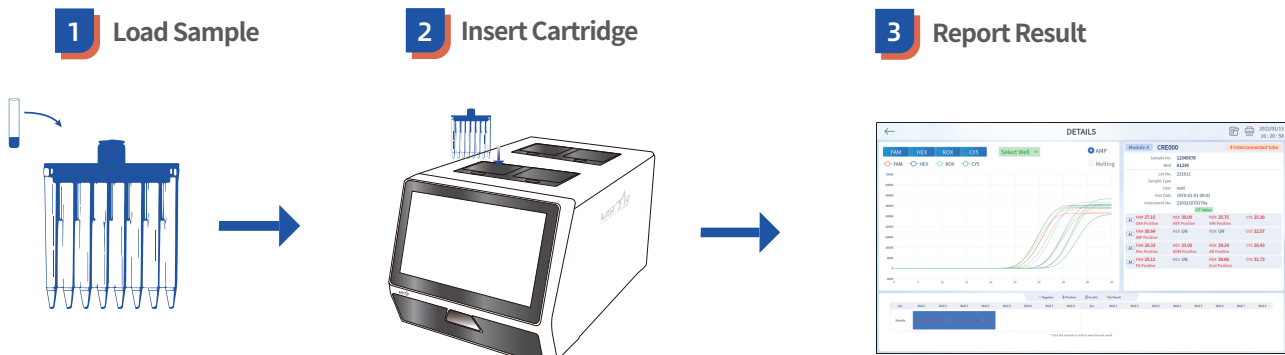

PRODUCT FEATURES

CARTRIDGE

WORKFLOW

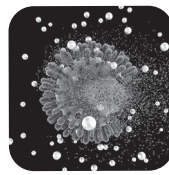

EXTENSIVE TESTING

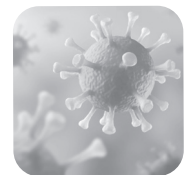

Pathogen Infection

Medication Guidance

Genotyping

Viral Load

EXPECTED FUTURE TESTING

*Products listed below are in development or registration.

Tests	Testing Items	Tests	Testing Items	
Pathogen Infection	MultNAT® RTI Panel	Genotyping	MultNAT® NTM genotyping	
	MultNAT® STI Panel		MultNAT® FII&FV	
	MultNAT® Flu and RSV		MultNAT® HPV Genotyping	
	MultNAT® SARS-CoV-2/Flu and RSV	Medication Guidance	MultNAT® MTC/MDR	
	MultNAT® Strep A		MultNAT® MTC/XDR	
	MultNAT® Helicobacter pylori		MultNAT® Carba - R	
	MultNAT® Pneumonia		MultNAT® Carba-R and Four Pathogens	
	MultNAT® Norovirus GI&GII		MultNAT® S.aureus and MRSA	
	MultNAT® Gastrointestinal Tract Infection		MultNAT® MRSA	
	MultNAT® Bloodborne Pathogens		MultNAT® Helicobacter Pylori 23S rRNA Gene Mutation	
	MultNAT® Meningitis Encephalitis		MultNAT® Warfarin Gene Polymorphism	
	MultNAT® Ebola		MultNAT® Clopidogrel Gene Polymorphism	
	MultNAT® Measles		MultNAT® Bladder Cancer	
	MultNAT® Monkeypox Virus		MultNAT® BCR-ABL Ultra	
	MultNAT® Dengue Virus		MultNAT® Van A/Van B	
	MultNAT® Poliovirus		MultNAT® MG DR	
	MultNAT® Borrelia burgdorferi		Viral Load	MultNAT® Epstein-Barr virus
	MultNAT® Rotavirus			MultNAT® HBV Viral Load
	MultNAT® Leptospirosis			MultNAT® HCV Viral Load
	MultNAT® Calicivirus			MultNAT® HIV Viral Load
